Embedded Software Development in a Startup
Internship

Verity Studios is creating a new breed of dynamic flying machines and related systems, leveraging technological innovation, scientific principles, advanced algorithms, and the art of design in unprecedented ways. Its systems are used in the live entertainment and in other industries. For example, Verity Studios flying machines are featured in PARAMOUR, the new Broadway show by Cirque du Soleil, where they perform 8 times a week, in front of a live audience of up to 2,000 people, without nets. Video is available at www.veritystudios.com.

Verity Studios is a spin-off company of the Swiss Federal Institute of Technology (ETH) Zurich, which is consistently ranked among the top universities in the world by all major world university rankings. Its offices are located 9 minutes from Zurich Central Station by train. Outdoor activities on lake Zurich and in the Swiss Alps are very easily accessible, as are many other destinations in Europe (e.g., France, Germany, Italy, and Austria are all within 2.5h by train from Zurich Central Station).

Your tasks

- The design and development of embedded software and firmware
- Involvement in all stages of prototype and product development, from design and validation to implementation and testing

Benefits

- Work in an early stage startup where you'll help shape the culture and can have a huge impact
- Competitive salary
- Work in an interdisciplinary, international team of highly skilled people
- Build something that will be seen by millions
- Organizational support (incl. looking for accommodation)
- Visa administration fee and some relocation assistance will be provided

Prerequisites

- Background in Embedded Software Engineering/Computer Engineering with a strong academic record and a demonstrated ability to convert theory into practice, in hardware or software
- Good English skills, written and spoken
- Excellent team and communication skills

How to apply

Submit a single PDF to internships [at] veritystudios.com (subject "[i-004]") including:

- The form "Internship Application"
- Cover letter
- Resume/CV
- Portfolio of relevant projects
- Academic degrees or transcript from ongoing studies
- Two references

Incomplete applications will not be pursued.

Note: If you are not an EU resident, you may need to prove enrolment at your university and this internship may need to be a compulsory part of your studies to be eligible. For full details, please review the necessary documents listed at www.iaeste.ch/Employers/VisaService/CourseOfEvents/ (interns) and www.bfm.admin.ch/bfm/en/home/themen/arbeit/berufspraktikum.html (young professionals, PEY).
