

Advanced Process Data Analytics Course

Symposium on Digitalization and Big Data in Biotech and Pharma

Quick Info

ETH Zurich,
8–9 Nov. 2017: Course
10 Nov.: Symposium

Learn from Leading
Experts in Industry
& Academia

About relevant Trends,
Techniques & Tools

With interactive Case
Studies on Big Data

And an attractive
Social Program

Course Information

Wednesday, 8 & Thursday, 9
November 2017:

Teaching

- Multivariate methods for dynamic process data analytics
- Special topics: data preparation, hybrid process models & online (spectral) data
- Tools for process development, validation and production

Interactive Case Studies

- Based on real industry cases
- Versatile software solutions

Symposium Info

Friday 10 November 2017:

Leading Expert Talks

- Challenges and Opportunities based on Big Process Data
- IT and PAT solutions towards Industry 4.0
- A variety of use cases from healthcare, chemical and pharmaceutical industry

Networking Lunch

- Discuss with Experts
- Get inspired by Exhibitors
- Meet skilled Students

Registration

Fees

- **Course:** 2200 CHF, max. 20 participants
- **Symposium:** 350 CHF, free for Course students
- Special university rates
- **Exhibition:** contact us for details
- **Early bird discount:** -15% until 30 April 2017
