Autoneum, with its headquarters in Winterthur, Switzerland, is the globally leading producer of vehicle acoustics and thermal management systems. The company develops and manufactures components, modules and complete systems for interior and engine bay as well as heatshields and underbody shields. Customers include leading automobile producers in the key markets of Europe, North America, South America and Asia. Autoneum is represented at around 50 locations in over 20 countries and employs more than 11,000 people worldwide, of whom about 5% are in Switzerland. The company is listed on the SIX Swiss Exchange (ticker symbol AUTN).

Global Applications Developer (f/m)

The Global Applications Developer is responsible for building, implementing and supporting multidimensional enterprise solutions, mostly (but not only) Business Intelligence Solutions sourced by the main Autoneum business systems (SAP, HFM, Demantra, PLM, etc). We are looking for a motivated developer willing to learn Microsoft BI Technologies and to become an expert in the field, gaining experience with Microsoft BI Stack, Reporting, Data cubes, architecture, etc.

The specific technical skills desired for this role include:

- Relational Database and SQL Language (T-SQL)
- Extraction, Transformation and Loading (ETL) (Microsoft SSIS)
- Data Warehouse / Solution Design
- Dimensional Modeling (Kimball Methodology)
- Analytics / OLAP Cube Development (Microsoft SSAS and MDX)
- Report Development (Microsoft SSRS)
- Self Service BI (Excel, Power BI, etc)
- Deep skills in Software Development (.NET, ASP.NET, C#, Web Services,)
- Basic Knowledge of Microsoft Sharepoint

For this interesting position we are expecting candidates to hold a degree in computer science, information technology, engineering or a related field. You should have excellent verbal and written communications skills as well as basic understanding of project management and agile methodologies. BI expertise is not required from the start, but you have to come with excellent programing skills in in .NET and SQL.

This position is open to graduates and young professionals with up to three years of experience. You will be trained and further developed to become an expert at all stages of BI projects.

Ready for the next step in your career? Then please hand-in your complete application (motivation letter, CV, reference letters, diplomas and certificates).
