

## Symposium: Ecology and Evolution in Forest Ecosystems

28<sup>th</sup> February 2017  
ETH Zentrum, CHN C 14  
(Universitaetstrasse 16, C-Floor)

Time	Presentations
8.30	<i>Welcome Coffee – CHN D-Floor (Lichthof)</i>
9:00 – 9:10	<b>Introduction</b>
9:10 – 10:00	<b>Dr. Valentin Queloz</b> , WSL Birmensdorf, Waldschutz Schweiz <i>Emerging tree pathogens: from taxonomy to community ecology</i>
10:00 – 10:50	<b>Dr. Michael Staab</b> , University of Freiburg, Faculty of Environment and Natural Resources, Germany <i>Insects and their multi-trophic interactions in natural and experimental forests</i>
10:50	<i>Coffee break - CHN D-Floor (Lichthof)</i>
11:20 – 12:10	<b>Dr. Thomas Crowther</b> , Netherlands Institute of Ecology, Wageningen, NL <i>Exploring how forests drive the global carbon cycle</i>
12:10 – 13:00	<b>Dr. Claire Fortunel</b> , University of California, Los Angeles, Department of Ecology and Evolutionary Biology, USA <i>Functional trait differences and the mechanisms structuring diverse communities</i>
13:00	<i>Buffet Lunch – CHN D-Floor (Lichthof)</i>
14:00 – 14:50	<b>Dr. William Anderegg</b> , University of Utah, Ecology & Environmental Biology, USA <i>From stomata to continents: Forest drought responses in a changing climate</i>
14:50 – 15:40	<b>Dr. Charlotte Grossiord</b> , Los Alamos National Laboratory, Earth and Environmental Sciences Division, USA <i>Forests in a drying and warming world: how species interact and adjust to climate change</i>
